

Salman Aljardan

Riyadh | 0500294474 | Salman1Aljardan@gmail.com | <https://www.linkedin.com/in/salman-aljardan>

- **Objective**

Computer Engineering student with a focus on cloud security, penetration testing, and backend systems. Interested in building secure, optimized infrastructure with a strong foundation in cloud platforms and hands-on experience in real-world security scenarios. Ranked 1st in AWS GameDay for networking/security.

- **Education**

B.S. in Computer Engineering | King Saud University | July 2023 – July 2028 | GPA 4.56

- **Technical Skills**

- Programming: Python, Java, Bash, Rust
- Cloud Platforms: Google Cloud Platform (GCP), Amazon Web Services (AWS)
- Security Tools: Nmap, Burp Suite, Metasploit, Hydra, Wireshark
- Other: Linux, Git, eBPF

- **Certifications**

- Google Cloud Infrastructure Basics – Tuwaiq Academy (2025)
- Python for Cybersecurity Professionals – Cybrary (2025)
- Jr. Penetration Tester Path – TryHackMe (2025)
- IELTS: 7.5 (2023)

- **Achievements**

- 1st Place – AWS GameDay (Networking & Security)

Led networking and security tasks in a real-time AWS simulation, deploying an Application Load Balancer, identifying a HTTP flood attack targeting a subdirectory, writing a WAF rule to block malicious URL patterns, and optimizing logging costs by redirecting VPC Flow Logs from CloudWatch to an infrequent-access S3 bucket. Outranked all teams in domain-specific score and ranking 4th overall.

- **Projects**

- HakureiShrine (Rust) - ongoing

Self-hosted lightweight anti-DDoS utility with IP credibility scoring. Implements a threshold engine with plans for eBPF-based packet enforcement.

- TaskMaster (Java)

GitHub: <https://github.com/Engineer-Salman/TaskMaster>

To-do list app with optional task encryption. Designed with modular backend and strong separation between logic and interface.

- **Volunteering**

- Future Technology Club | Public Relations | Jan 2025 - Present

Created Flandre Was Hungry — a location intelligence tool built in Python that harvested café and bakery data from OpenStreetMap within a 50 km radius of KSU, auto-generating Excel reports with names, phones, websites, and coordinates to supercharge PR targeting and Identifying 300+ business, Leveraged OSINT tools and techniques to enrich leads and uncover insights about potential sponsors, even when public contact info was minimal.

- High School | Event Host & Speaker | 2022 - 2023

Emceed two major events with over 800 attendees each; handled live audience engagement.
